NORTH ORISSA UNIVERSITY

July, 2020

From the Vice Chancellor's Desk:

It is heartening to know that the 4th issue of the annual newsletter of North Orissa University is being published. I would like to congratulate the entire team of NOU and the editorial board, in particular, for putting this excellent issue together. The newsletter is a shining example of what the sustained dedication and collective endeavours of our staff members can achieve. A newsletter not only documents and celebrates the activities of the institution but also reminds us of what remains to be done.

This bulletin appears at a crucial historical juncture when the New National Education Policy (NEP) - 2020 has opened a world of possibilities in education in our country, the global COVID-19 pandemic poses unprecedented challenges to the functioning of education system and efforts are being made to bring massive restructuring of the University functioning through promulgation of Odisha Universities Amendment Ordinance, 2020. The Newsletter will provide opportunities to realise our innate strength to respond positively to the unfolding crisis.

I sincerely hope that the Newsletter will bring all the stakeholders (academic, administrative and other constituent units of the University) closer to each other and encourage them to more vigorously integrate their activities. In the process, the profile of the University will be enhanced.

Editorial

Due to unprecedented COVID-19 situations, we are going to commemorate the 23rd Foundation Day of the University unostentatiously. The University is in its youth. It will be more vibrant and productive in the hands of dynamic student mass and enthusiastic staff. The green and lustrous campus provides pristine environment to the seekers of knowledge and congenial soothing atmosphere to the visitors. No doubt, we are all part of the long journey towards development of the institution. On the occasion, we have the opportunity to share our success as well as failure stories through this newsletter. With the generous financial support of DHE, Govt. of Odisha, the University has completed 1000 seated Convention hall. Similarly, infrastructural development works got momentum by receiving grants from RUSA, World Bank and Govt. of Odisha.

Our students and teachers are not lagging behind in bringing laurels to the University. With cooperation of all the talented teachers, coupled with the facilities, our students are committed to achieve that singular goal and to emerge as capable human beings for themselves and for the nation.

Chairman, PG Council

From Registrar's pen

It gives me immense pleasure to know that North Orissa University is going to release its annual newsletter incorporating the highlights of University's activities and achievement in various fields over the past one year.

I hope the activities reflected in the newsletter will provide a solid source of inspiration to all concerned. This newsletter will also disseminate knowledge and inculcate a strong sense of values for our preparedness to strengthen our University in every respect.
